APPROVING AR ADJUSTMENTS

1. Navigate to RPI AR-SUPERVISOR > Adjustments > Approve Adjustments

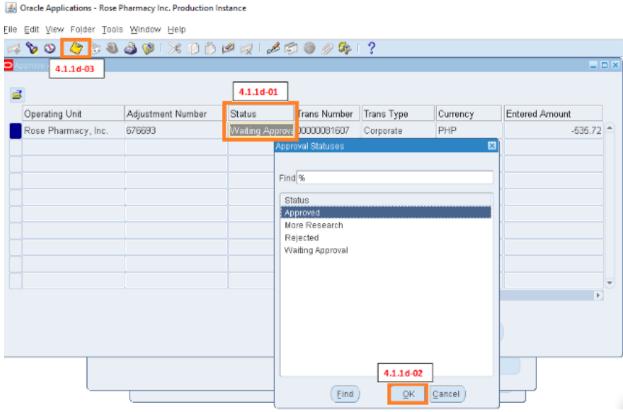

In Find Adjustments window

Per transaction

- 4.1.1a Fill-in the specific number for Approval in Adjustment number field
- 4.1.1b Select status checkbox Pending
- 4.1.1c Select Find (button).

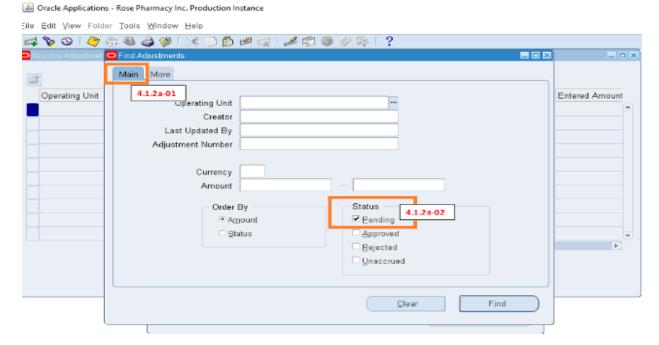

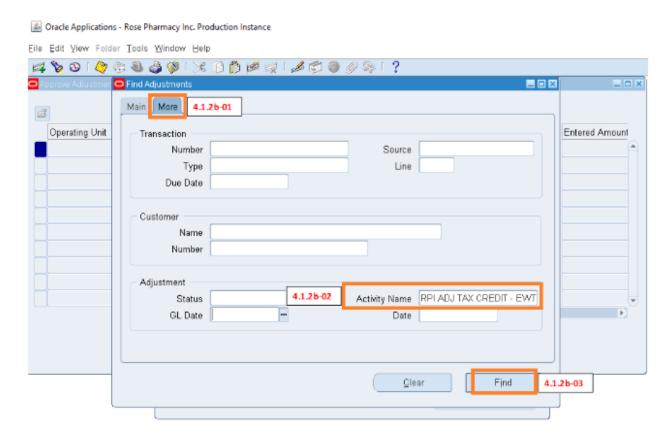

4.1.1d Update status from 'Waiting Approval' to 'Approved' > then SAVED.

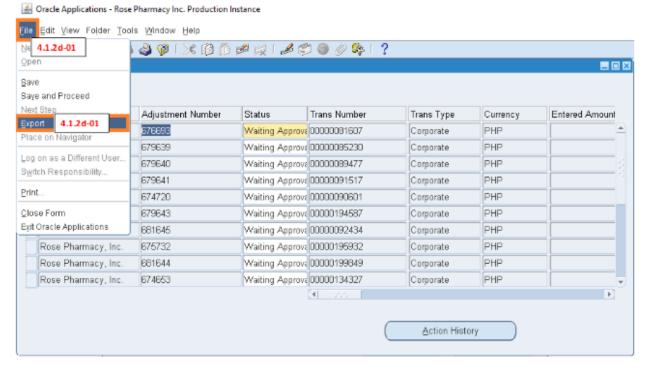

Per Batch

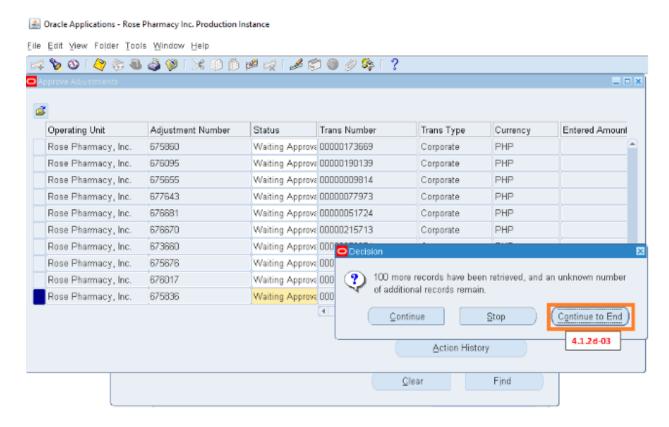

- **4.1.2a** Go to main tab > Select status checkbox Pending
- **4.1.2b** Go to more tab > fill-in the specific Activity name for approval
- 4.1.2c Select Find (button).

4.1.2d To review the requests for adjustment by batch > Go to File menu>Export submenu > Select Continue to End (button).

Note: Open Notepad and copy to excel. You may now review it in excel.

4.1.2e Update status from 'Waiting Approval' to 'Approved' > then SAVED. For batch approval, you may use the DATALOADER.
